## A Challenge

## From Honolulu

Honolulu, May 2nd, 1911.  
To Kauai Athletic Association,  
Lihue, Kauai.

Dear Sirs:  
With regret for not knowing the proper person to address this communication, I on behalf of the Aala Baseball Team, do hereby challenge all KAUAI TEAM, to a game of baseball to be held in Lihue on July 1st, 2nd, and the 4th.

I will have twelve men on my list and I hope that you will agree to stand for our expenses, that is the steamer fare, boarding and lodgings, and all the gate receipts to go to your team.

But in case you make more than enough and think it proper to give us some of it why we won't care.

I have a pretty strong team and most of the players are in the Oahu League and I expect them to put a stiff battle for these games.

I hope to hear a satisfactory answer from you as soon as possible. I beg to remain with hope that you will let me know by the next boat. I remain

Yours for Sport  
C. W. SAM HOP.

## Hawaii's Gall

Waimea, Kauai, April 12.—Gall beats wisdom. Hawaii now wants to become a state—nothing like gall, it beats wisdom all hollow, especially in Honolulu. The main reason is said to be on account of the Japs. Why are we always howling about the Japs? Did not the Japs on Washington's Birthday, 5,000 strong, patriotically parade and show the highest honor and respect to the father of our country? Where in any part of the United States did any other foreign element show like appreciation of the memory of our most distinguished statesman. The Japanese citizens of Hawaii, who would naturally be included in Hawaii as a state, would probably know more about American History than many native sons, who are invariably too much occupied in the pursuit of the almighty dollar to care about patriotism and their country.

line of choice cut-glass goods.

S. Bickerton, Honolulu, is in the market with some pure bred White Leghorn cockrels. Also eggs by settings or hundreds.

**DOORS OPEN AT 7:30 P. M.**

#### Everything In

#### A Car's Name

"The man who made the mortal inquiry, 'What's in a name?' should have finished the job and given us an answer. The tone of his inquiry would lead one to believe that he thought there was nothing in a name," said Frank E. Howes of the Associated Garage, local dealer in Chalmers' Cars.

"As a matter of fact, there is everything in a name. If there were not it wouldn't be worth-while to advertise trade-mark products.

"In buying an automobile, the name is the biggest thing one gets. After all it doesn't make much difference about the specifications as long as the car gives the right kind of service. And the only way you can know anything about service is by the name. The name on motor cars stands for certain things—it stands for the reputation that car has with the people who own it; it stands for what the car has done in contests; it tells in a word the kind of company which builds the car; it is the public's means of knowing whether a car is honest or dishonest.

To my mind the monogram on a Chalmers' radiator stands for more than any other name in the automobile industry; it stands for the many victories of the Chalmers in contests of all kinds during the past three years; it stands for the winning of the 1910 Glidden Trophy in the longest and hardest contest ever held. That monogram is the buyer's insurance that the car which bears it was designed by Chalmers engineers, constructed of material which has come up to the Chalmers inspection standard, built by Chalmers organization, in the Chalmers factory, tested by the Chalmers Inspection Department and backed by the guarantee of the Chalmers service.

"When you buy an automobile, be sure that you buy a name which stands for good things."

Hon. J. I. Silva, accompanied by Mrs. Silva and Mrs. Pavno, made a short visit to the County Seat last Wednesday.
